I N H O N O U R O F
T E R R O I R

If you've ever asked what's in this cocktail? you, friend, have asked the right question. But, we'll wager that you've never heard the correct answer – until now. For the drink is more than the sum of its parts. It is the total of what, and who, made these components. And how, and when, and where, they did it. Just as with fine wine, the heart of the cocktail lies in **TERROIR**. All of the natural elements that create unique growing conditions – specific to just one location – harnessed by the artistry and understanding of those who tend that land.

You might say that Peridot's Director of Beverage François Cavelier is also one of a kind – taking this philosophy grown from wine cultivation and applying it, through our Terroir Programme, to the spirits we will feature in turn. To honour each exquisitely crafted flavour and elevate its characteristics. Through blending, bitters, glass and garnish. To be as finely finished as it was begun. Because, just as it could start in only one place on earth, so was it destined to be enjoyed only here.

O A X A C A

For our second Terroir journey, we travel to the sun-bleached valleys and mountainous folds of Oaxaca, the spiritual heart of Mexico. Here, the story is not written in soil alone, but in fire, stone, and centuries of unwavering tradition.

The soul of this land is the mighty agave.

Under an intense sun, in mineral-rich earth shaped by ancient seismic forces, the maguey grows for decades, gathering a profound, smoky-sweet character.

This is the raw material for Oaxaca's liquid art: Mezcal.

But Mezcal is more than a spirit, it is the direct echo of its creation. The heart of the agave, roasted in earthen pits, crushed by a stone wheel (tahona), and fermented with wild yeasts, carries the very breath of the palenque and the hand of the maestro mezcalero.

It is an expression of singular place and person.

Peridot's Oaxaca Terroir Programme is a respectful exploration of this profound complexity.

Each cocktail is a creative dialogue with the spirit's spectrum, from intense smoke and deep minerality to vibrant tropical fruit and herbal sweetness.

We honour the land that gives the agave its strength, the fire that unlocks its soul, and the masterful hands that guide it, drop by precious drop into the glass.

CHICHIBU DISTILLERY

The story is inseparable from the story of its founder, the late Ichiro Akuto.

He is the grandson of the founder of the Hanyu Distillery, which closed in 2000. When the distillery's parent company went bankrupt, the stock of aging Hanyu whisky, including the now-legendary "Ichiro's Malt" playing card series, was at risk of being destroyed. Ichiro rescued these casks and founded Venture Whisky in 2004 to bottle and sell them. The success and reputation gained from selling these legendary whiskies provided the capital and credibility to build his own distillery.

BUFFALO TRACE DISTILLERY

Buffalo Trace Distillery is more than a bourbon producer, it's a living legend. Operating for over 200 years on the banks of the Kentucky River, it has survived floods, fires, and prohibition to become the epicenter of the modern bourbon cult. It is the hallowed ground where icons are born. This is the home of Blanton's, the world's first single-barrel bourbon, Eagle Rare, and the highly wheated W.L. Weller line. It is also the distillery and aging house for the ultimate whiskey grail: Pappy Van Winkle.

PENNCO DISTILLERY

Pennco Distillery (later known as Publicker Industrial Alcohol Co.) was once a titan of American spirits production. Located in Philadelphia, it was constructed during World War II to supply industrial alcohol for the war effort. In the post-war era, Pennco shifted to massive-scale production of bourbon and rye whiskey, becoming one of the largest distilleries in the United States by volume. However, this focus on quantity over quality, combined with complex financial troubles, ultimately led to its downfall.

The distillery closed in 1981 and was later destroyed in a catastrophic series of fires in the 1990s. Today, Pennco is a ghost, its story serves as a cautionary tale of boom and bust, while its remaining bottles of Old Overholt and Pure Kentucky rye have become rare, sought-after relics from a lost era of American distilling.

Pennco Distillery was purchased and renamed to Michter's.

WILLETT DISTILLERY

Willett Distillery is a bastion of American whiskey tradition and a modern phenomenon. For decades, it was legendary for its sourced whiskey, bottling incredibly rare and coveted rye and bourbon from forgotten stocks that now command astronomical prices among collectors.

From its iconic pot-stilled bourbon to its ancient rickhouses, Willett operates with uncompromising independence.

It is a family-owned distillery that has successfully transformed from a curator of lost whiskey into a creator of new legends, maintaining an aura of mystery and desirability that few can match.

WILLETT FAMILY ESTATE 25 YEARS 100 PROOF 750ML 88,880
